

# Roofing Solutions from Geocel

## Geocel® Shingle & Flashing Roof Accessory Paint

- Creates a professional, finished look
  - Smooth, durable, rust-fighting finish that prevents stains
  - Superior corrosion protection - with or without primer
  - Dries in 8 minutes or less
  - Prevents rust stains or discoloration
- Basic Uses:** Hide flaws and blemishes to damaged shingles. Color match flashings, vents and penetrations to create a professional finished look.

## Geocel® Galvanizing Primer

- Spray directly over rust to protect against further corrosion
- Converts rust to a primed, paintable surface
- A high performance primer containing 97% pure zinc dust pigment blended with epoxy resin
- Fuses zinc to the metal substrate and delivers protection against corrosion equal to or better than hot dipped galvanize
- Dries in 2-3 hours

**Basic Uses:** Gutters, flashings, structural steel, galvanized surfaces, and piping.  
SKU# GC91901

## Geocel® Rust Converter

- Spray directly over rust to protect against further corrosion
- Applies clear and turns black as it converts rust to a primed, paintable surface
- Dries in 2-3 hours

**Basic Uses:** Gutters, flashings, structural steel, and piping.  
SKU# GC91900
